

iCare Software, technology in all the right places!

iCare Software streamlines administrative tasks and improves efficiency in childcare and daycare centers.

Stay relevant with technology and stay ahead of the competition. However, too much technology can bog down your childcare business with wasted time, money, and effort with no guarantees of a return on investment.

iCare Software is a one-stop shop that manages a variety of billing platforms from weekly, monthly, and best yet drop-in billing! With iCare you can streamline your business to save time and money.

iCare Software Features:

- Parent Portal for pre-paid packages, payments, reservations, scheduling, and enrichment class sign-up with a waitlist feature based on ratios.
- A drop-in center page for easy checkout and POS payment collection.
- Child, parent & staff profiles for important information and signed documents.
- Easy access to an online parent handbook with real-time updates for families.
- Journaling for child notes, milestones, photo sharing, and assessments.
- Automated receipts, invoices, payment collection, late pick up & late payment fees.
- Virtual classroom for teaching, tours, and video conferencing.
- Portal for online registration, collecting payments, SMS texting, photo sharing, signature required forms, scheduling sign up & pay for specialty classes & manage drop-in care to save you hours of time.
- Parent App for payments, check-in & out, communication, photos, and reserving time slots.
- Multisite center management.
- CACFP food tracking.
- iCare is web and App based
